

I am writing in response to the changes that may be in order for the radio station that I listen to Airl. As a resident of my community, Airl serves me with the most inspirational music out there. There are no other stations that come close to playing the music that they do. If Airl was to be taken off the air, I would no longer listen to the radio and listen only to compact discs. Airl is the only reason that I listen to the radio. Airl is important for our community. It provides people with great music, dj's, and no meaningless commercials. I work in a doctor's office and we listen to Airl everyday. Everyone of our patients had said that Airl has touched them in some way. Many of our patients are now listeners of Airl. I know if Airl would be taken from us, we would no longer listen to the radio at work. Please think long and hard about your decision to leave or take Airl away. If you take Airl away, I think you will be making a huge mistake. Please leave Airl alone.

Thank you for your time!
